

Features

- ▶ Wall Mount Cabinet
- ▶ Available in Red
- ▶ Key Lock Front Door
- ▶ Removable Front Door
- ▶ Conduit Knockouts Provided
- ▶ Heavy Duty 16 Gage Steel
- ▶ Cabinet Door Tamper Switch
- ▶ Two MP-1 Mounting Plate Footprints
- ▶ Vented Front Door

Description

The CAB-50 Wall Mount Enclosure is a 16 gage steel equipment enclosure. The CAB-50 contains two mounting plate footprints. The enclosure is designed for use with all LSN 2000 components, such as the DAB-7 Motherboard, Power Supplies, Batteries and Amplifiers. The removable cabinet front doors are vented and contains a key lock for security. A tamper switch is also provided for system information when the door is open. In the rear of the enclosure, mounting studs exist for the installation of the removable MP-1 Mounting Plate. Conduit knock outs are provided. When installing the CAB-50 enclosure, the following must be considered:-

- Local mounting codes.
- The physical size and weight of cabinet.
- Obstruction free area, which would prevent the cabinet doors from opening freely.

CAB-50 w/DAB-7, PS-7A's & Batteries

CAB-50

Application

The CAB-50 Wall Mount Enclosure is used to mount the DAB-7 Motherboard or MP-1 Mounting Plate with electronic components. The CAB-50 enclosure is specifically designed with mounting studs to facilitate mounting of the back boxes without electronics components installed. Electronic components can be assembled on mounting plates and installed in the enclosures after they have been mounted.

Approvals and Listings

Underwriters Laboratories (File No. S2184)
Fire Department - City of NY COA #6051

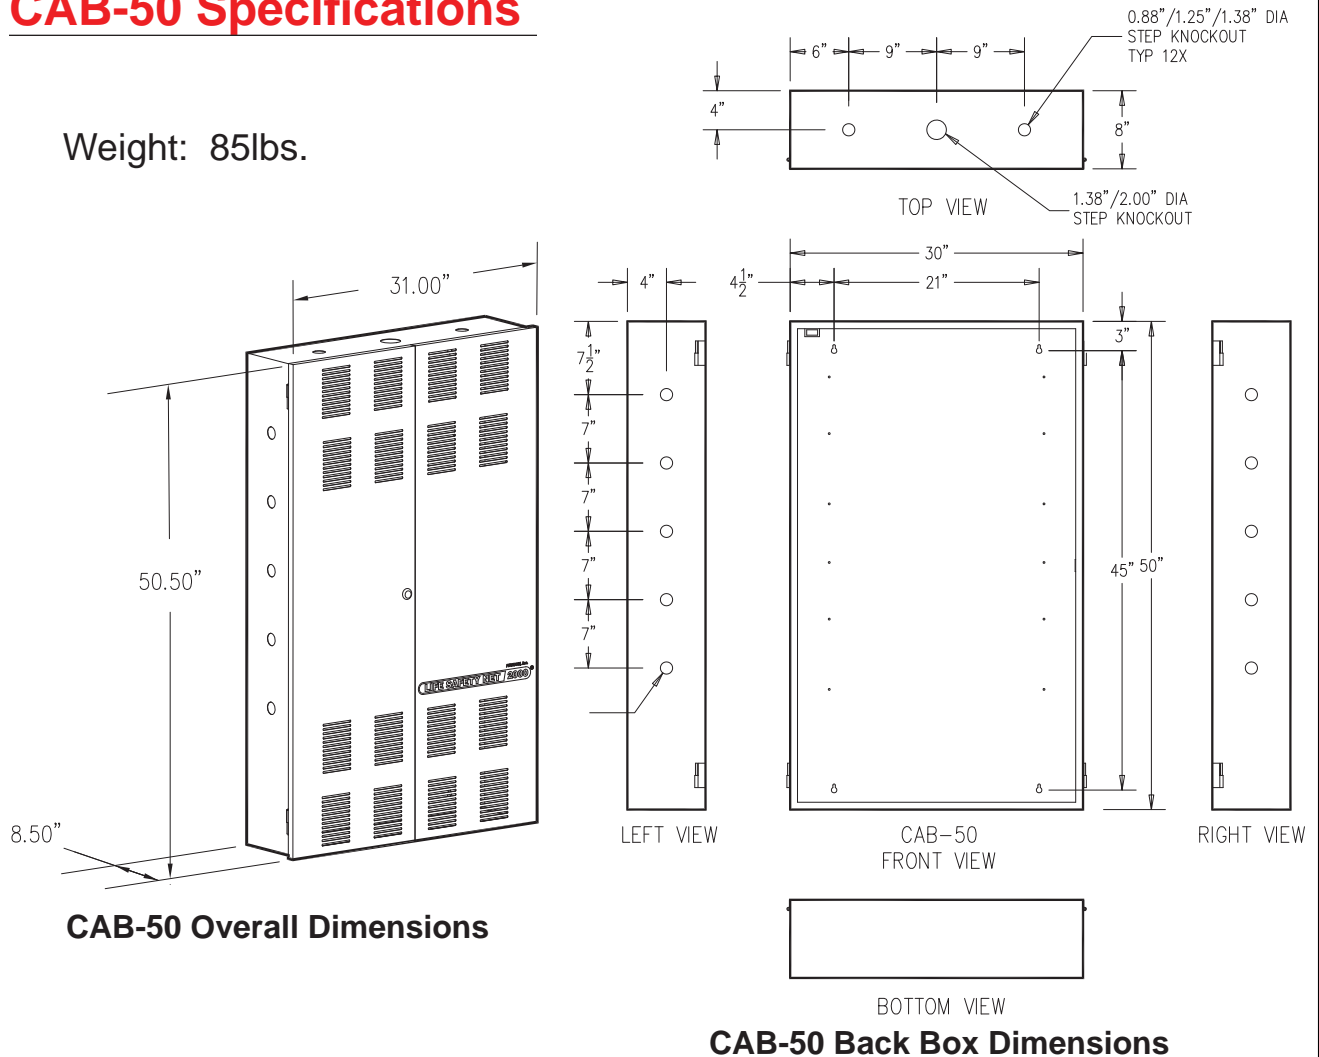

Engineering Specifications

The CAB-50 wall mount enclosure shall be UL Listed for mounting LSN 2000 electronic components. The CAB-50 shall contain 12 mounting studs for two MP-1 Mounting Plate footprints. These MP-1 footprints shall allow for the installation of either an DAB-7 Motherboard or MP-1 Mounting Plate. This feature will allow for electronic components to be assembled, pre-wired and tested on a MP-1 Mounting Plate before installation in the enclosure. The CAB-50 shall be made of 16 gage heavy duty steel painted red. The front doors shall be capable of being removed. The front doors shall also be vented and contain a key lock for unauthorized opening. The CAB-50 shall contain a door tamper switch for system indication when the enclosure door is open. Conduit knock outs shall be provided on three sides of the enclosure.
